

Let's automate the things

Course Name: Getting Started with Arduino/Robotics

Description:

Curious about making your own Robot? Learn the basic concept about microcontroller, sensors, actuators and its programming, required to design a fully functional Arduino Robot.

Course Duration	12 Hours
No. Sessions	12 nos
Prerequisite	Basic Computer & Basic Electronics Skills
Age Group	12 Years onwards

What you will learn:

- Fundamentals of Robotics
- Microcontroller & its programming
- Construction of different types of robot
- Time controlled robot
- Serial Communication
- Line Follower
- Object Avoider Robot
- Clap controlled Robot

Certificate : E Certificate

Requirements : PC with Windows/Mac/Linux O.S.

Course Fees :

Batch Training : **Rs. 5050/-**

1 to 1 Training : **Rs. 8700/-**
