

Creo Designing - Advance

Let's create your own 3D Models

Course Name: Additive Manufacturing

Description:

Additive Manufacturing is a process for making a physical object from a three dimensional digital model, typically by laying down many successive thin layers of a material. It brings a digital object (its CAD representation) into its physical form by adding layer by layer of materials.

Course Duration	12 Hours
No. Sessions	12 nos
Prerequisite	Creo Designing - Advance
Age Group	12 Yearsonwards

What you will learn:

- 3D Printer working
- 3D printing and its maintenance
- Make 3D Printed Products

Certificate : E Certificate

Requirements : PC with Windows

Course Fees :

Batch Training : **Rs. 2999/-**

1 to 1 Training : **Rs. 6499/-**
