

AI - The Future of Tomorrow

Course Name: AI and ML

Description:

Artificial intelligence, as known as AI, is the imitation or cloning of human intelligence, that allows machines, more specifically computer systems, to perform in an extremely intelligent manner. AI is not just limited to the computer and space-related industries, but it also plays a significant role in industries that are directly related to a common man, like healthcare, automobile, and even banking and finance sector.

Course Duration	12 Hours
No. Sessions	12 nos
Prerequisite	Python
Age Group	15 Yearsonwards

What you will learn:

- You will get introduced to the world AI
- Understanding the basic concepts and working of AI
- Application of AI

Certificate : E Certificate

Requirements : PC with Windows/Mac/Linux O.S.

Course Fees :

Batch Training : **Rs. 3999/-** 1 to 1 Training : **Rs. 7999/-**
